

CALL FOR APPLICATIONS

Since 2008, the MAACASSO association organizes each year, an international art film festival called NYGO for "Nos Yeux Grands Ouverts" (weach means Our Eyes Wide Open). The festival creates a competition between young artists. Our aim is to promote and highlight the new talents of the contemporary audiovisual creation. For the 10th edition, on March the 1st, our association is looking for young artists with an art film project that will be submitted to the judgement of the NYGO jury.

This year, we invite all the candidates to work on the theme "Resonance". This theme can be treated in a sonor, visual or conceptual way because it can be understood as a reflect, or an impact with consequences. The resonance is a link between two elements, an impact of one to another, an answer from one to another. The artist must express a resonance in its film, but its goal can also be the achievement of its own resonance into the public's appreciation, to create a link between the artwork's meaning and the spectator's feeling.

We want the art films to be a mean for the artists to spread their ideas, visions, concerns and feelings as a shock wave on the public, and a canal to interconnect individuals.

Criteria to respect:

- **Person aged 18 to 30 years old.**
- **Respect the theme imposed in his creative process.**
- **One project per applicant but several artists possible on the realization.**
- **The film must be between 30 seconds and 8 minutes, including the credits.**
- **Fill out the online application form. Submit his film by mail: (wetransfer file)**

candidatures.nygo2018@gmail.com

(accepted formats : .mp4, .m4v, .avi, .mpeg2 or .mov).
